

2018 ICRI-GA Project Awards – PART 2

Entry Form PART 2

PLEASE DOWNLOAD THIS FORM TO COMPLETE AND EMAIL YOUR ENTRY TO ICRI-GA.

In this section you will be asked to provide your project presentation and other project details. Except for the project name, please do not include any information here or within any uploaded content that contains the confidential information submitted in Part I.

Your project presentation PDF should include (but is not be limited to) the following information:

- Structure characteristics (size, construction, etc.)
- Problems that prompted repair
- Inspection/evaluation methods
- Test results
- Causes of deterioration
- Repair system selection (generic)
- Site preparation
- Demolition method
- Surface preparation
- Application method selection
- Repair process execution
- Unforeseen conditions found
- Special features that make the project worthy of an award

Please provide photographs and images used in the project presentation. These photos will be used for displaying winning entries at the 2018 Fall Convention and publication in ICRI's Concrete Repair Bulletin (CRB).

- Provide at least six (6), but no more than 15 high resolution photographs (300 dpi+) showing special features of the repair. Before, during, and after shots are preferred. Illustrations or construction details will be accepted in addition to the photographs. One (1) of the photos should be designated as an Award Plaque photo (landscape orientation - not portrait).
- JPEG, PDF, PNG, and GIF image files only. **If needed, compress (zip) all of your photos into several zip files for easier emailing (each zip file cannot exceed 15MB).**

PLEASE NOTE: Since file size is limited when emailing, only include the required finished project/cover photo and award plaque photo, and then contact Joshua Lloyd at jllloyd@er-inc.net or 404-518- 6121, for alternative instructions for the remainder of your pictures.
